Group Art Unit: 2836  
Examiner: Patel, Dharti Haridas  
For: AUTOMATIC MOTOR OUTPUT-TO-INPUT POWER  
CALCULATOR

**REQUEST FOR RECONSIDERATION**

Mail Stop AF  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This paper is responsive to the Final Office Action mailed on August 4, 2008.

Applicant respectfully requests reconsideration.

**The restriction should be withdrawn.**

The Examiner has improperly withdrawn claims 25 and 26 from consideration. The Examiner's explanation on page 2 is incorrect. According to the Examiner, claim 1 recites subject matter that occurs "without user intervention." That is not necessarily the case. The interface of claim 1 is "for manually entering values of a motor output." The input power setting determining module operates based upon "entered motor output values." There is nothing about claim 1 that prohibits manual user intervention. Therefore, the subject matter of claims 25 and 26 is consistent with a possible scope of claims that have already been examined. There is no reason to exclude claims 25 and 26 from consideration in this application. Applicant respectfully requests that claims 25 and 26 be considered in this application.
